

APPENDIX III
WILLIAM MILES SITE COLLECTIONS

WILLIAM MILES SITE COLLECTIONS

A. Materials Collected by William Miles

GROUND STONE:

- 1 pestle
- 1 metate
- 1 unidentified tool fragment
- 1 probable grooved ax

FLAKED STONE:

Quartzite:

Translucent:

- 1 small triangular, Straight-stemmed point
- 1 small side-notched point
- 1 base of lanceolate, contracting-stem point
- 3 bifacial fragments
- 3 tool fragments

Opaque:

- 1 narrow-bladed, straight-stemmed point
- 2 lanceolate expanding-stem points
- 1 lanceolate contracting-stem point
- 1 broad-bladed contracting-stem point
- 1 broad-bladed point tip
- 3 biface fragments
- 2 side-scrappers
- 5 pieces debitage

Red:

- 2 late stage biface rejects
- 1 fragmentary uniface
- 1 flake
- 1 large angular chunk

Quartz Crystal:

- 2 pieces debitage

Quartz:

- 1 small side-notched point
- 1 narrow-bladed straight-stemmed point
- 1 base of expanding stemmed point
- 1 base of possible bifurcate point
- 2 small narrow-bladed contracting - stem point
- 1 small narrow-bladed tear-drop shaped point

- 1 point tip
- 1 small narrow-bladed late stage biface reject
- 10 unidentified bifacial fragments
- 1 unifacial side-scraper
- 1 single flake with denticulated distal edge
- 15 pieces debitage

Rhyolite:

- 1 small expanding stem point
- 1 narrow-bladed straight-stemmed point
- 1 lanceolate biface fragment

Ironstone:

- 1 broadbladed point tip

Argillite:

- 1 side-notched point
- 1 biface fragment
- 1 flake

Chalcedony:

- 1 broad-bladed point

Jasper:

- 1 small pentagonal side-notched point
- 2 corner-notched points (possible Jack's Reef)
- 1 narrow-bladed Rossville-like point
- 1 broad-bladed contracting stem point
- 4 side-notched points
- 2 narrow-bladed, straight-stemmed points
- 2 flakes with bifacial retouch on lateral edges
- 5 biface fragments
- 1 bifacially worked tool (worked on single lateral edge)
- 29 pieces of debitage

Red Chert:

- 2 narrow-bladed contracting-stemmed points
- 1 late stage biface reject
- 1 elongated pentagonal point
- 3 pieces debitage
- 1 blocky fragment
- 1 bifacial drill

Unidentified Raw Materials:

- 1 possible abrader
- 1 side-notched point
- 1 biface fragment

- 1 tool fragment
- 3 pieces of debitage
- 1 uniface, retouched on a single lateral edge

B. Materials Collected by Ziggy Mielnnikiewicz

Jasper:

- 1 bifacial drill
- 1 small narrow-bladed contracting-stem point
- 1 small triangular-bladed point with expanding stem
- 31 pieces debitage

Quartz:

- 3 core fragments
- 1 uniface
- 1 point tip
- 9 pieces debitage

Argillite:

- 1 stemmed narrow bladed point
- 1 lanceolate point

Chalcedony:

- 2 pieces debitage

Quartzite:

- 1 uniface

Other:

- 1 hammerstone reddish sandstone
